

COLOURS @ KALAHARI

FEBRUARY 11, 2019

The collision repair industry is experiencing constant and ongoing change. What made us successful now may not be what we need in the future. What should you focus on? What knowledge and skills will keep us relevant today? Success is not guaranteed, how do we plan for the future?

PPG MVP is updating and building new classes to assist our customers in their pursuit of success. PPG MVP 1 and 2 day classes cover the most current and relevant topics for the industry.

Topics to be covered:

- ♦ **How to identify waste and how to get started minimizing waste.**
- ♦ **What to consider on the administrative side of the business.**
- ♦ **What should be happening in the paint shop to maximize profits?**
- ♦ **What are the most important things to identify when writing estimates?**
- ♦ **What causes the majority of parts problems and how to minimized them.**
- ♦ **Are you repair planning? Does it work? How do I know?**

-
- ♦ **LOCATION:** **KALAHARI RESORT & CONFERENCE CENTER
