PPG MVP VIRTUAL LEARNING SESSION

DISCOVERY... *THE MISSING LINK!*

Are you doing meticulous disassembly and still having issues with work stoppage and multiple supplements. Discovery is 'The Missing Link' between effective and accurate meticulous disassembly and the success of a repair job that flows through the repair process, keeping the technician working continuously on the job.

Defined as 'The Act or Process of Discovering', this session will outline the details on running an effective and efficient discovery meeting after each repair plan is completed. We will review the discovery meeting preparation, required resources, roles & responsibilities of each resource, systems & tools, and the process steps for preparation, notification, execution, and wrap-up. If you skip discovery.... You have skipped the 'The Missing Link!'

Date: August 20, 2020

Time: 4:00 PM - 5:00 PM EDT

Eastern Daylight Time
