What is 3M™ Collision Repair Solutions?

3M™ Collision Repair Solutions is a combined hardware and software profitability enhancement tool. The tool rests on four key features:

- **Inventory Management:** You can track usage of all your shop materials (Allied, Paint and Parts) and search through reports allowing you to filter by job, technician or department based on your level of analysis need.
- **Auto Ordering:** The inventory solution allows you to seamlessly order materials from your distributor based on minimum and maximum levels of product that you can set.
- **Material Invoicing:** The tool allows you to invoice for non-included materials and add them to your Repair Order. You can create invoices using 3M's invoicing tool CRiMP in the front office or in the shop. This feature is C C C One Workflow integrated, allowing for easy uploads of Material Invoices into your management software.
- **KPI Performance Analysis:** You can track all important KPIs in your shop, including but not limited to – Cycle Time, Material Profitability, Total Sales, Labor Hours. This tool is also C C C One Workflow integrated, allowing for seamless download of data and KPI tracking. All KPIs are located on a centralized dashboard for easy access and analysis.
